Ranking/Arrangement

Solution

Direction: (1-5):

B
F
C
A
G
H
E
D

1. Answer: (B)
Hence two person buys F and G.

2. Answer: (B)
Hence, D buys the item at last.

3. Answer: (B)
Hence, H buys the item immediate before E.

4. Answer: (E)
Hence, five-person buys item after C.

5. Answer: (E)
Hence, AB is the odd one out.

Direction: (6-10):
M-----F-----J-----B-----K-----T------U------P

6. Answer: (D)
When they go in **alphabetical order** we will get the below arrangement.
B-----F-----J-----K-----M-----P-----T-----U
Hence, **U** will go at last.

7. Answer: (D)
Four persons go before K.
Hence, the correct answer is More than **three**.

8. Answer: (B)
Only two persons go between B and U.
Hence, the correct answer is **Two.**

9. Answer: (E)
Except in option 5, only one person goes between the first one and the second one.
Hence, the correct answer is **BU.**

10. Answer: (C)
B and K both are going after J
Hence, the correct answer is **B and K.**

11. Answer: (D)
Six person G, K, M, N, R and T.
1. R completed his shopping immediate before N but before or after 1 person from T.
Case I -
R > N > T
Case II -
T > _ > R > N
2. T completed the shopping before K.
Case I -
R > N > T > K
Case II -
T > K > R > N
3. M completed his shopping immediate before G.
Case I – (a)
M > G > R > N > T > K
Case I – (b)
R > N > T > K > M > G
Case II – (a)
T > K > R > N > M > G
Case II – (b)
M > G **> T > K > R > N**
Here, more than 1 possible cases.
Hence, the correct answer is "Can't be determined".

12. Answer: (B)
Azad is 13th from the top, so 27 students has rank below him. So he is 28th from the bottom.

13. Answer: (B)
No of boys = x; No of girls = 2x;
x+2x = 90 => 3x = 90
x (Boys)= 30 ; 2x(Girls) = 60
Number of student behind Rakesh = 90 – 14 = 76
No of girls behind Rakesh = 60 – 10 = 50
No of boys behind Rakesh = 76 – 50 = 26

14. Answer: (E)
As from the given statement the position of G is not fixed so there is two possible case in which G sits three places above A or three places below A. And, the position of L and Q is also not fixed.

15. Answer: (E)

16. Answer: (A)
One

17. Answer: (D)

18. Answer: (E)
Can't be determined, because no relation is given between position of Mahesh and Sneha.
